

## ALUMNI BLOG

*During my college days, I was fortunate to be a part of the student council. I was a Lady Representative in the Student Council. As a Lady Representative my role was to provide support for women whenever they needed. I was a point of contact for all female- and gender-related issues. I looked after maintaining the discipline and organization of any event held in the college. This role helped me to be better at problem-solving and to be disciplined.*

*I have also achieved awards as a Lady Representative for my efficient and effective work and have also received awards for actively taking part in organizing the events held in college.*

*Due to my college experience, I was able to receive an award as a best debut performer in my company.*

*My role as a sports analyst is to tag accurate moves and jersey no. For the player in basketball this helps the coach to know how efficiently their players are performing on the court. I am constantly seeking new challenges and opportunities to learn and grow in my field.*

*During my college years, I was fortunate enough to be a part of a Student Council. I was a technical representative in the Student council, that came with being responsible for setting up and maintaining audio-visual equipment for events and presentations. I worked closely with the college media and communications department to ensure that events ran smoothly, and that the audio-visual setup was of the highest quality. Through this role, I developed strong technical skills, as well as excellent organizational and problem-solving abilities. I was also able to work with people from diverse backgrounds, which helped me build my interpersonal skills.*

*Achievements: •Awarded for my excellence as a technical representative, demonstrated through efficient and effective work.*

*•Completed an internship with a well-known company, where I made significant contributions to several projects.*

*My college skills and experience have helped me to add valuable contributions to my work.*

***I am currently working as a programmer at Ipsos data service center. My role involves working on HTML, JavaScript, and CSS to create websites.***

*College Life is one of the most remarkable and lovable times of an individual's life. Unlike School life, College life has a different experience, and a person needs to have this experience in his/her life. College Life exposes us to a whole new world which we always dream of experiencing after our school life. Lucky are those who get the chance to enjoy their college life, as many people don't get this chance due to their circumstances. While some people spend their college life partying with friends, others become more cautious about their careers and study hard. Whatever the way, every individual enjoys their college life and always wishes to relive that time once it is over. When I took admission to this college, I was really afraid as all the people were new to me. But soon, I started enjoying my college life and made some fantastic friends. As I graduated last year from J.K.College Of Science and Commerce in Bachelors of Commerce field, it was a great experience. I think I walked out of college being a much more independent, mature and confident person.*

***I am presently working as an accountant in GP Parsik Bank in Finance Department***

*My experiences with J. K. College were great and a memory to cherish for a lifetime. It was full of learning and improvement. The entire faculty over here leaves no stone unturned to shape their student's future. I was always confident to keep a step forward for every activity as I was always supported and encouraged by the faculties. They have been a great contributor to the development of my personality.*

*"Opportunities don't happen, you create them", and for creating them one should develop many skills. I have established my leadership, time management and team skills from this college.*

*I have always made sure I learn from my failures and take my failures as an example for all time. I always had my Faculty and my Friends beside me in every situation to support the guide and to help me go on the right path ahead.*

*I would like to thank JK College of Science and Commerce for helping me reach where I am today.*
