Placement Cell-Notice

All Final-year students of BSc.IT and BSc CS are hereby informed that To enhance the practical skills and employability of students in Computer Science Engineering (CSE), Information Technology (IT), Artificial Intelligence (AI), Machine Learning (ML), Data Science (DS), and other allied branches, we propose a structured project-based learning program in association with ExelR. This program will provide hands-on experience through collaborative projects, expert mentoring, and a robust support system, ensuring students develop industry-relevant skills.

Program Details:

1. Learning Management System (LMS): Access would be provided for 1 year
 - a. Self-Paced Content: Students will have access to self-paced e-learning video content relevant to their project's tech stack through the LMS.
 - b. Live Sessions: Weekly live sessions will be held for doubt clarification and project guidance.
 - c. CRT Self-Paced Content: 240+ Hours of self-paced CRT content aligned with company specific questions mapped and practice tests included.
2. Project Review:
 - a. Weekly Presentations: Students will present their project status to mentors weekly.
 - b. Doubt Clarification: One live session per week dedicated to addressing students' doubts.
3. Project Acceptance Criteria:
 - a. Workable Prototype: A functional prototype must be submitted at the end of the project.
 - b. Evaluation and Feedback: Mentors will evaluate the projects and provide constructive feedback to each group.
4. Portfolio Building:
 - a. GitHub: Guidance on setting up and maintaining a project portfolio on GitHub.
 - b. LinkedIn: Assistance with showcasing projects and skills on LinkedIn.
 - c. Resume: Tips and templates for including project details in resumes.
