# Report Poster Making Competition

**Date:18 September 2023**

The Women Development Cell (WDC) of J.K. College of Science and Commerce in association with IQAC had organized an E-Poster and Poster Making Competition on 18 Sept 2023, aimed at promoting creativity, awareness, and empowerment among students. The event was a great success, bringing together talented students to showcase their artistic and communicative skills. The Competition Categories were E-Poster Making and Traditional Poster Making

The event saw enthusiastic participation from students of various departments. Students from diverse academic backgrounds took part, and the event was open to both male and female participants. The theme of the competition was "**Green solution for safety and hygiene of a woman.**" Participants were encouraged to create visually engaging posters that highlighted the significance of hygiene, women's safety, and the importance of green solution for Hygiene in society. The participants showcased a wide range of interpretations of the theme, emphasizing the importance of women's safety from different perspectives. The artwork displayed a high level of creativity, with participants using various mediums and styles to convey their messages. The event contributed to raising awareness about hygiene issues and encouraged important discussions about women's roles in society.

The event proved to be an inspiring event, promoting creativity and awareness. It successfully engaged students in discussions about women's safety and hygiene, and it highlighted the importance of such initiatives in educational institutions. The event received positive feedback from both participants and the audience, emphasizing the need for continued efforts to empower and uplift women in society.

# GREEN SOLUTIONS FOR SAFETY AND HYGIENE OF WOMEN

- Green solutions for safety and hygiene for women refer to initiatives and practices that prioritize the well-being, security, and cleanliness of women while minimizing negative impacts on the environment.
- These solutions aim to create a sustainable and eco-friendly approach to addressing women's safety and hygiene needs.

## A Green Approach to Feminine Safety : A Future of Equality

### Green Solutions

- Reusable Menstrual Products
- Access to Clean Water
- Eco-Friendly Sanitary Napkins
- Women's Self-Defense Classes
- Support Women's Initiatives
- Eco-Friendly Personal Care

- Implementing eco-friendly sanitation solutions like composting toilets or biodegradable sanitation products can help maintain a clean and safe environment.
- Encouraging the use of eco-friendly menstrual products like reusable cloth pads, menstrual cups, or organic disposable pads can reduce waste and promote hygiene.
